AGree Reacts to Agricultural Investments in Inflation Reduction Act

Washington, DC -- Today, Congress passed the Inflation Reduction Act which includes roughly \$40 billion for agriculture. Heather Lair, Meridian Institute Partner, released the following statement:

“Climate action is essential, and it must be bipartisan. AGree will continue to make bipartisan recommendations for how to strengthen our food and agriculture system, making it more resilient.”

###

About The AGree Initiative

The AGree Initiative includes the AGree Economic and Environmental Risk Coalition (AGree E2 Coalition) and the AGree Climate, Food, and Ag Dialogue (CFAD). AGree focuses on developing innovative and scalable policies and pilot programs that support farmers in improving agronomic and environmental outcomes while adapting to weather variability. AGree partners believe there are real opportunities to use federal agricultural policy to incentivize and scale agricultural practices that reduce greenhouse gas emissions, improve soil health, and enhance water quality while reducing farmer costs and improving profitability.
