**AGree Coalition Commends Rep. Angie Craig on Becoming Ranking Dem.  
Member on the House Agriculture Committee**

Washington, DC -- Following the news that Rep. Angie Craig won the vote to become the Democrats' ranking member of the House Agriculture Committee, Kristin Weeks Duncanson, owner and partner at Highland Family Farms and a member of the AGree Initiative, released the following statement:

“As a major advocate for farmers and producers, Rep. Craig has gained a real understanding of agriculture across the country. She has advanced food and agriculture policy that considers conservation by being a true bipartisan champion. This is exemplified by the sheer number of bills she has co-sponsored or authored with colleagues across the aisle. We look forward to working with her and the 119th Congress to pass legislation ensuring economic and environmental resilience for producers.”
